Australia, officially known as the Commonwealth of Australia, is a sovereign country comprising the mainland of the Australian continent, the island of Tasmania, and numerous smaller islands. Australia is a land of contrasts: sweeping golden beaches, coral reefs rich with marine life, tropical rainforest, mountain ranges, vast grazing lands and sparse deserts. One of the oldest continents, Australia is the only country to occupy an entire continent. Surrounded by the Indian and Pacific Oceans, Australia has many animals and plants, which are unique on the planet. The surface geology is typically old and flat with a major mountain range stretching down the eastern coast and another mountain range in the north west of the continent.

Australia is the largest country in Oceania and the world's sixth-largest country by total area. The Economist Intelligence Unit ranked Melbourne the world's most liveable city for seven consecutive years, from 2011 to 2017.

Australia is also home to 6 of the 100 best universities in the world!

AUSTRALIA

About 36 per cent of Victoria is forest. The Murray is the State's longest river and there are a number of large inland lakes. Victoria's vast coastline extends over 1600 kilometers, bordering the Southern Ocean and Bass Strait and separating the Australian mainland from Tasmania.

Victoria is the most densely populated of Australia's 8 States and Territories. Some 26 per cent of all Australians live in Victoria and, of those, most reside in Melbourne, the nation's second largest city and capital of this state.

VICTORIA

Melbourne is the capital of the State of Victoria. It is situated on the Yarra River and around Port Phillip Bay with its beautiful beaches and water sports facilities. It is a beautiful spacious city with all the parks, gardens, sporting venues and scenic places that Australian space and natural resources allow.

Melbourne is a world-renowned cultural, artistic, financial and communications centre served by an international airport, a cargo and passenger seaport, and rail links to neighbouring States.

One quarter of Melbourne's population was born overseas making it one of the world's most multicultural cities. There are now people from 140 nations living harmoniously together. This broad ethnic mix has brought many benefits to the city including a wide range of cuisines and over 2,300 elegant restaurants, bistros and cafes. Melbourne has an excellent public transport system with trams, trains and buses providing an extensive network throughout the city and suburbs.

The population is approximately 4 million. Melbourne is a sprawling city with suburbs extending up to 50km from the centre of the city.

The city centre is on the banks of the Yarra River, 5km from Port Phillip Bay.

The city centre features world class

- department stores
- historical architecture
- theatres, galleries and arts centres

Melbourne is only a short distance from many beautiful beaches as well as the Victorian mountain regions, where skiing is popular during winter.

The city and surrounding suburbs are well serviced by a public transport network of buses, trains and trams.

A multicultural city enriched by 170 ethnic groups. Sometimes called the culinary capital of Australia, Melbourne has a vast array of restaurants, offering a variety of international cuisine.

Bustling Chinatown in the heart of the city, serves up the finest of Asian cuisine and culture. Several other Melbourne streets are dedicated to Vietnamese, Japanese, Italian and Greek food - cuisine to suit every palate and many to suit a student's budget.

WEATHER AND CLIMATE

Melbourne enjoys a temperate climate with four distinct seasons in the year - spring, summer, winter and autumn. Below is a guide to the average daily temperatures.

Spring **September to November**
9-22°C
 Summer **December to February**
14-27°C
 Autumn **March to May**
10-24°C
 Winter **June to August**
7-16°C

Melbourne does not have a specific wet season; it can rain at any time of the year. Melbourne is well known for having unpredictable weather which occasionally consists of elements of each of the four seasons in one day! From tropical rainforests to arid deserts there are many landscapes to see. The hottest months in most parts of Australia are January and February and the coldest June and July. If you are arriving during these months you will need to prepare accordingly as the temperatures can be quite extreme.

MULTICULTURALISM

More than 100 ethnic groups are represented in Australia, making Australia one of the most culturally diverse countries in the world. Australia's dynamic multiculturalism can be attributed to its unique combination of Indigenous cultures, early European settlement and immigration from all parts of the world.

Australians value the wealth of cultural diversity and social sophistication that international students bring to our campuses and our communities. We take great care in looking after international students and helping them to adjust to the Australian way of life.

International students also gain great benefits from their education in Australia and make lifelong friendships.

ART

Australian contemporary arts reflect the world's oldest continuous cultural traditions and also a diverse, multicultural society. Our visual and performing arts communities receive international acclaim for their vibrancy, originality and cutting-edge work in the arts, literature, stage and cinema, dance, classical music and contemporary Australian rock music.

The National Museum of Australia opened as part of Australia's Centenary of Federation celebrations in 2001. It is co-located with the Australian Institute of Aboriginal and Torres Strait Islander Studies in the nation's capital city of Canberra and adds to more than 1000 museums throughout Australia.

FESTIVALS

- International Comedy Festival
- International Festival of the Arts
- Chinese New Year
- Parade Moomba Festival

INTERNATIONAL SPORTING EVENTS

- Spring Racing Carnival (Melbourne Cup)
- Australian Open (Grand Slam tennis)
- Grand Prix Motor Racing

Although English is the official language, a host of other languages are spoken in Australia. As one of the most culturally diverse countries in the world many Australians are naturally fluent in other languages. More than 2.4 million Australians speak a language other than English at home. Within the education and training system about 15 per cent of those of working age studying for an educational qualification have English as a second language. More than 800,000 Australians speak a European Union language, apart from English, in the home. Another 800,000 Australians speak an Asian language in the home.

In Australia not only is there the opportunity to improve your English through specialist study in an English-speaking environment but all sectors of Australian education and training provide tuition in many other languages as well.

English as it is spoken in Australia is very easily understood by nearly all people from other English-speaking nations. While there are some minor differences in accent between the cities and country areas, the difference is much less than you will find in America, Britain and Canada where French is also spoken. As you improve your English in Australia, you will learn some of our slang, and have much fun explaining the meanings to your friends and relatives at home.

RELIGION

Australia is predominantly a Christian country. However, all religions are represented in our multicultural society. Australians respect the freedom of people to practice their choice of religion. Churches, mosques, temples and synagogues are located in most major cities. Some universities have their own spiritual groups on campus.

HEALTH CARE

Australia has a very good health care system. All Australians pay a Medicare levy (additional tax) to fund the public health system and ensure everyone gets access to public system doctors, hospitals and other health care services. People who pay extra into a private health insurance fund receive certain privileges when they use private health care services. As well as the usual services available in just about any Australian suburb or town, most Australian institutions also provide special health care services and advice for students.

International students studying in Australia are required to have Overseas Student Health Cover (OSHC) for the duration of their student visa.

Please visit the (study Australia OSHC page) <https://www.studyaustralia.gov.au/en/plan-your-move/overseas-student-health-cover-oshc> for more information on OSHC

FOOD

Australia has a fantastic variety of food. Our top quality meat, seafood, fruits and vegetables are exported to markets all around the globe. There is a large range of fruit and vegetables available at Australian produce markets. You should have no difficulty in finding the foods that you are used to at home.

You can sample almost every type of cuisine available throughout the world in our many restaurants. There are elegant restaurants or typical Aussie pubs. Ethnic restaurants offer cuisines from all around the world. Good food at reasonable prices can be found at bistros or cafes. And for those who like takeaway, most of the major global fast food chains are well represented. The adventurous can try some of our 'bush tucker'.

Course Progress Monitoring

(BIC) complies with the National Code Standard 8. The Overseas Students Visa Requirement states that overseas students must make and maintain satisfactory course progress as a condition of their student visa.

Registered providers must:

monitor the overseas student's course progress according to the requirements of the VET Sector, identify and offer support to those at risk of not meeting course progress requirements, •

only extend the duration of an overseas students' enrolment in certain circumstances and advise them of potential impacts on their student visa.

Satisfactory Course Progress: Students are required to maintain satisfactory progress by successfully completing or demonstrating competency in at least 50% of the units during each study period to meet minimum competency standards.

Unsatisfactory Course Progress: Students have not achieved satisfactory progress by not successfully completing or demonstrating competency in at least 50% of the units during each study period to meet minimum competency standards.

Intervention Strategy: Students who are identified as having unsatisfactory

course progress or who are at risk of falling into unsatisfactory course progress are referred to a student support to discuss their progress and to implement an intervention strategy.

Students who fail to achieve Satisfactory Course Progress in accordance with their Student Visa Requirements may result in being reported for Unsatisfactory Course Progress.

Under the Education Services for Overseas Students Act 2000 and the National Code 2018, BIC will report unsatisfactory course progress (failing to complete at least 50% of units for two consecutive study periods) to the Department of Home Affairs (DHA) via PRISMS. If students continue to fail the course progress requirements for two consecutive study periods, they will be reported to the Department of Home Affairs.

PLAGIARISM

WHAT IS PLAGIARISM?

Plagiarism means presenting the work or property of another person as one's own without appropriate acknowledgement such as referencing or citation of their work. There are many different ways that plagiarism can happen and you should be aware of these. Consider the descriptions below of different ways that plagiarism can occur.

FORM OF PLAGIARISM	EXPLANATION
Too closely paraphrasing sentences, paragraphs or ideas, e.g. copying sentences and substituting words with similar meaning.	When paraphrasing from a source, the meaning of the sentence or paragraph should be expressed in your own words without copying either the words or the structure of the sentence/paragraph.
Submitting your own previously submitted or assessed work without permission or acknowledgement. Submitting your own previously submitted or published work for publication elsewhere without permission or acknowledgement.	This is known as self-plagiarism. Once you have submitted academic work for assessment or credit, it is considered dishonest to then submit the same work for further credit elsewhere.
Submitting written or creative work which has been produced by someone else and claiming authorship for it, including: <ul style="list-style-type: none"> reproducing all or parts of another student's work (including students who have previously completed the same unit) allowing another person to do the work for you contracting another person to do the work for you purchasing work from another source 	It is dishonest to ask, arrange for or pay someone to do work for you that you will later claim or present as your own. This applies to the use or purchase of material from websites or anyone offering academic writing services
Allowing or contracting another person to edit and substantially change your work.	If you ask someone to edit or proof read your work make sure that person only highlights or indicates where there are problems rather than fixing the problem or changing the text or work for you. If you employ an editor to assist you with the production of your assignment or thesis you should include an acknowledgement indicating that an editor was used and provide a description of the scope of the edit.
